Bathing is fun!

MASTER CATALOGUE

# INTRODUCTION

Fresh...is the feeling after a nice bath in the morning. Bathing is both a pleasure activity as well as a hygienic chore but we think bathing should really be one rejuvenating aspect of your daily chores. What can be more inviting and invigorating than a lavish bathroom!

We make masterpieces for your bathrooms & spas so that you can enjoy every moment of your liaison with water. Whether it is the sheer power of your shower that activates blood circulation or it is the ecstasy of a Jacuzzi that soothes your spine. The contour of your bath tub adds to beauty of your bathroom and the shower enclosures separate wet & dry areas. Besides, wash basins in fascinating shapes & colors transform the entire form of your bathroom.

Come dip into the enthralling ideas in bathing & spa with a name that reflects dignity, quality and virtue.

Aesthetics count little if not supported with necessary technical ideation. This has been our belief right since the inception of our business. Presiware is a company formed by people who are technocrats by brain and designers by heart!

The purpose is to provide excellent bathing solutions and to make bathing more fun than a mere ritual. Our experience in the area of polymers and general engineering for more than 25 years plus a decade of being in producing bathing solutions has helped us in understanding the details of technology and different aspects of water flow. Besides, there is a stringent check on quality of material and finished products.

Presiware team is fully equipped to offer concept to commission service in terms of system design, production, installation, maintenance & up gradation. A strong service back-up has been the key to our products being enjoyed by many customers across India.

# SPA TUBS

---

Outdoor spas are the marvellous way to relax and be stress free. The spa systems manufactured by **PRESIDENT** are of high end quality and are user friendly. The seating arrangement is made in such a way that it is surrounded with different types of massage jets in various positions with an aim to massage different parts of body with centralised footrest.

## ADVANTAGES

### More economy

The outdoor spas are designed in such a way that these are user friendly and need not to worry about power consumption.

### Water hygiene

Unlike swimming pools, **PRESIDENT** Spas don't use any harsh chemicals that can be harmful. Advanced water treatment techniques are used to ensure the cleanest and clearest water.

### Easy installation

Space saver

Can be fitted indoor as well as outdoor

Easy to maintain

UV stabilized material to protect from sunlight

## FEATURES

### Ergonomic design

**PRESIDENT** Spas are designed to maximize your comfort. The strategically designed cantors maximizes relaxing in each position.

Multi seater arrangement with lounge seat

Digital finger touch control panel which is easy to operate

Microprocessor based control panel

Individual pressure switches

Direct as well as indirect mood lighting

Online fitted micro filtration

Multi-functional hydro massage jets

Digital temperature controller

Thermal water insulation

**PRESIDENT** has its own wide range of massage bathtubs. These bathtubs are well designed and are of excellent quality. These bathtubs are made up of engineering plastic which consist of massage jets which helps to improve blood circulation, some muscles and joint pain relief. Whatever you desire it might be a cold or hot water a massage bathtub gives it all to relax yourself. User friendly, good stress buster, helps in reducing body fats and improves body metabolism, easy to operate functions, easy to shift from cold to hot water for your benefits.

# MASSAGE BATH TUBS

## FEATURES

### Hydro massage

A gentle jet massage helps to stimulate the surface of the skin. It even helps your entire muscular system to relax. Strategical placed micro jets helps in neck and back massage to eliminate your fatigue and aches. It also works as an acupressure therapy on various points on the human body and improves in the blood circulation process.

### Air Massage

Number of air bubbles provide a sensation on the skin and allow the water to penetrate deep inside the tissue. This sensational feeling is accompanied by a deep experience of healing warmth. It also increases the air oxygen in the water and imparts fresh feeling.

### Chromotherapy

Direct and indirect multi chromatic lights will help to change the mood and relax your body.

### Humanised intelligent control

Massage bathtubs are backed up with finger touch control panels and microprocessor based computer box, this will take care of switching the modes.

### Self-cleaning pipelines

**PRESIDENT** Massage bathtubs are provided with a strategic piping system so that all the water from the pipeline drains down after each use. This will help to maintain the hygiene in the tub.

### Dry run protection

This is the special feature which ensures that sufficient amount of water before starting the whirlpool systems pump. Thus life of pump is assured or increased.

### Ozone sterilization

Pre fitted ozone generator disinfects the water body by killing germs and bacteria's. It also enhances the body tone by acting as an anti-oxidant.

Made from reinforced composite polymers

The shell of massage bathtub is made from imported PMMA acrylic material with high gloss and it is backed up by FRP reinforcement to provide additional strength.

# STEAM ROOMS

For those seeking wellness in the comfort of their homes President Steam room is a great way to experience luxury with hydro therapy. Our steam rooms gives multifunctional effects of whirlpool steam and showers.

## ADVANTAGES

### Clearer skin

Steam shower helps to remove all the congestion from under the surface of the skin.

Steam helps opening the pores in the skin and toxins are thrown out of the body

### Infection treatment

The greatest advantage of taking a regular steam is getting read of respiratory infection.

### Increased circulation

Regular steam shower helps in better blood circulation through the body. Brings proper oxygen to the cells and decreases the risk of hypertension.

### Stress relief

One of the most powerful benefit of steam showers is their ability to reduce both physical and mental stress.

### Metabolism and weight loss

It's an ancient Ayurvedic technique which talks about "Swedan" which means reducing the fat by stimulating the lymphatic system by steam.

### Aroma therapy

The steam in combination with various threptic aromas helps in reducing allergies and also sets the mood.

## FEATURES

### Material

**PRESIDENT** steam rooms are made from reinforced composite polymers. The shell of steam room is made from imported PMMA acrylic material with high gloss and it is backed up by FRP reinforcement to provide additional strength. The hardware used in the steam rooms is made of excellent quality aluminium alloy and brass rollers to ensure smooth roiling action. President steam rooms are provided with toughen glass and superior quality silicon gasket to provide stability and 100% water tight effect.

### Easy Installation

The installation of the steam room is as easy as it can be, the metal frame carries the elements and is simply put together.

### Safety

The steam room meets all the safety standards which are currently in effect. President do not compromise on the safety of the customer. The bottom tray is provided with antiskid feature.

### Microprocessor based digital control

A new generation control panel interface is provided in the steam room. This helps to control many functions like mood lighting, radio, telephone etc. this control panel is absolutely water proof and user friendly.

### About the steam story

**PRESIDENT** steam rooms are fitted with in-house designed steam generators which are coupled with smart new generation control panel.

# STEAM GENERATOR

For those seeking wellness in the comfort of their homes President Steam generators is a great way to experience luxury.

## ADVANTAGES

### Clearer skin

Steam shower helps to remove all the congestion from under the surface of the skin.

Steam helps opening the pores in the skin and toxins are thrown out of the body.

### Infection treatment

The greatest advantage of taking a regular steam is getting read of respiratory infection.

### Increased circulation

Regular steam shower helps in better blood circulation through the body. Brings proper oxygen to the cells and decreases the risk of hypertension.

### Stress relief

One of the most powerful benefit of steam showers is their ability to reduce both physical and mental stress.

### Metabolism and weight loss

It's an ancient Ayurvedic technique which talks about "Swedan" which means reducing the fat by stimulating the lymphatic system by steam.

### Aroma therapy

The steam in combination with various threptic aromas helps in reducing allergies and also sets the mood.

## FEATURES

### Material

**PRESIDENT** steam generator vessels are made of high quality stainless steel (304) and tasted at high pressure.

### Easy Installation

The installation of the steam generator is very easy and this can be fitted in a very small space.

### Safety

The steam generators meets all the safety standards which are currently in effect. We do not compromise on the safety of the customer.

### Microprocessor based digital control

A new generation control panel interface is provided in the steam generator. This helps to control many functions like light, temperature and time.

This control panel is absolutely water proof and user friendly.

### Auto drain facility

Our steam generators are provided with auto drain facilities. In this system water is drain automatically after each use from the steamer tank. This helps to reduce scaling effect in the boiler and maintains the hygiene.

### Special grade heating elements

In **PRESIDENT** Steam generators we are using high quality special grade heating elements which are coated with PTFE. This increases the steam output and reduces the risk of scaling.

### Steam dispenser

**PRESIDENT** steam generators are supplied with brass steam nozzle. We also can provide high grade polymer steam dispenser with arrangement for aroma therapy.

We also do have smart and sturdy foldable shower and steam seats with wooden stainless steel and plastic material.

## STEAM GENERATOR

# SHOWER ROOMS & SCREENS

- **PRESIDENT** shower enclosures are a must for every bathroom to minimize the danger of slipping and falling.
- These shower rooms are readily available in standard sizes.
- We also can customize shower rooms as per the site requirement
- It separates dry and wet areas and optimizes bath spaces.
- It adds luxury to the bathroom.
- Easy to clean.
- Brass hardware.
- Made with toughened safety glass and high quality hinges.
- 5 years warrantee on hardware.

## THE GLASS STORY

90% of the encloser material is glass, so glass must conform to the highest safety standard as it is being used in the bathroom. We use 6mm and 10mm toughen safety glass complying to both European and Indian standards (IS 2553, IS 14900:2000, IS 2835:1987 and En 14450:2000) in all our enclosers.

### Why Toughen Glass?

- 4-5 times stronger than a normal glass
- When broken breaks into smaller pieces to reduce the risk factor.
- Can resist thermal stress as edge strength is higher.
- Quality check:
  - Visual defects: to check bubbles, scratches, chipping at edges and other visible defects.
  - Ball drop test: to check strength at point of impact
  - Zebra test: no waviness
  - Fragmentation test: to check breakage pattern of glass

### About The Hardware

- Hinges, glass connectors and stabilizers
  - Made with 100% brass
  - Nickel and chrome plating (50 micron)
  - Automatic closing up to 30o.
  - Tested for 5,00,000 cycles
  - Load carrying capacity: 30kg
- Towel handles
  - 19mm diameter
  - Material: stainless steel 304 grade

- Aluminum profiles and rollers
  - The sliding channels are made of aluminum alloy which imparts structural strength to the system
  - Aesthetically excellent finish
  - High quality brass rollers for smooth sliding action
- Plastic seals and gasket
  - Silicon seals with magnetic beading
  - Made from virgin plastic

A close-up photograph of a woman with dark hair, eyes closed, and a serene expression, standing under a shower. Water is spraying over her face and hair, creating a misty, refreshing atmosphere. The background is a light-colored wall with a shower panel visible.

# SHOWER PANELS

President shower panels are easy to use and provide much more convenience since they are user friendly and fit in a small bathroom as well. These shower panels increases the functionality of your shower area, as they can fit neatly on the wall.

## ADVANTAGES

### Maximization of bathroom space

These are also called vertical whirlpool system since they are designed to be fixed on the wall, not much floor space is required to accommodate the unit.

One can enjoy total hands free hydro massage instead of using a single shower head, many shower panels are available with multiple water output.

### Economical

**PRESIDENT** Shower panels are available in wide range of materials, colours, styles, sizes and designs to suit different needs.

# PRESSURE PUMPS

Water pressure plays a vital role in operating all the wellness products. Our company provides both pressure boosters and hydro pneumatic systems to support all these wellness products.

FEEL THE FORCE 135

## ADVANTAGES

- A constant pressurised water supply
- Water saving
- Simultaneous equal pressure at all water outlets
- With high water pressure it gives a joyful shower experience

## FEATURES

- Sturdy and reliable motor with copper winding
- Stainless steel multistage water pump with SS impellers
- Absolutely noise free
- Fitted with high quality pressure switch tested for 50,000 cycles
- Operating pressure range from 2-5kg/bar
- High grade pressure vessel with EPDM gasket
- Easy to install
- Installation guidance available
- Excellent after sales service backup

## PRESSURE PUMPS

PBP01

### SPECIFICATIONS

Model: Jet 100

Mono Block Centrifugal Pump

Material: Cast Iron With 19 ltr Air Tank With Pressure Switch & Other accessories

**MRP: Rs. 30,000**

## PRESSURE PUMPS

PBP02/03

### SPECIFICATIONS

- Model: CM 4-40  
1HP Multi Stage Centrifugal Pump  
Material: SS Body Pump With 24 ltr Air Tank With Pressure Switch & Other accessories  
**MRP: Rs. 38,000**
- Model: CM 4-60  
2HP Multi Stage Centrifugal Pump  
Material: SS Body Pump With 24/60 ltr Air Tank With Pressure Switch & Other accessories  
**MRP: Rs. 50,000 / 56,000**

# SOLAR WATER HEATER

The range of Solar Water Heater offered by us is an innovative product, which helps in minimizing the electricity bill. It is easy to install and does not require any operating cost. These are widely appreciated for their Eco-friendly feature and pollution free applications. Our range of products have highly insulated storage tank to prevent heat losses.

## SOLAR WATER HEATER

### FEATURES

Non-pressurised solar system (ETC)

- Available in 150, 200, 250 and 300 ltr capacity
- Storage vessel is made from G.I material which is tested for 0.5kg pressure
- Special PU material for thermal insulation
- Solar collectors are made from imported glass tubes with inside copper coating
- Provided with powder coated M.S support structure
- Provision for electrical heating backup

## SOLAR WATER HEATER

### Pressurised water system

- Available in 250, 375 and 500 ltr capacity
- Storage vessel is made from SS304 material which is tested for 10kg pressure
- Special Rockwool material used for thermal insulation
- Solar panels are made from 100% pure copper and are having ISI mark
- The system is provided with safety and vacuum release valves
- Provided with powder coated M.S support structure
- Provision for electrical heating backup

# LIFESTYLE PRODUCTS

**PRESIDENT** brings you a new range of products which makes a life style statement for you. These are fully customized products carved out of solid surface (100% pure cast acrylic resin). We have wide range of products such as bathtubs, vanities, bathroom cabinet, mirrors, toilet ledges and many bathroom furniture accessories.

## FEATURES

- 100% pure cast acrylic resin
- Wide range of colours. Literally we can match any colour you want.
- Available in matt, satin, semi-gloss, and glossy finish up to 3500
- Scratch resistant surfaces
- Low absorption coefficient
- Customized contouring with bending and forming features
- Comes along with specific as well as customized designs
- Fitted with high quality, branded, soft closing hardware and accessories.
- Size & shape can be customized as per requirements.
